Education

Aug 2022 - May 2026

University of Colorado Boulder | *Bachelor's Degree*

4.0 GPA

Major: Creative Technology and Design Engineering

Connects both engineering and design to combine my skills for computation and aesthetics working with HTML, CSS, JS, and Adobe After Effects.

Minor: Space and Data Science

Learning about Space has boosted my creativity and awe for new subjects. Data Science has expanded my coding background, giving me a Python and SQL boost.

Certificate: Leadership

Communication is an instilled quality of anyone with this certificate.

Skills

Bubble.io

Figma

HTML, CSS, JS

Adobe After Effects

UX Research

Python

SQL

Communication

Customer Service

Teamwork Collaboration

Work Experience

May 2025 - Present

UI/UX Designer & Developer | *The Colorado Floor Company*

Continuing development of the CFC Suite's three sections using Bubble.io. I built documentation for the entire app for future developers to reference. I work directly with users, building UX Research experience. The CFC Suite app has worked with \$5 million in revenue for the company so far.

May 2024 - Aug 2024

Junior UI/UX Designer | *The Colorado Floor Company*

Developed new UI/UX update for company's Design Center Suite using Bubble.io and Figma.

Worked in a team as the designer for the Automation Hub website, converting Figma into CSS.

Jan 2024 - Present

Barista | *Drogos Coffee Bar*

Greet customers with a smile and a hello which creates a positive environment for all students.

Memorized menu items to better cater each customer's experience.

Clubs & Activities

May 2025 - Present

President | *Buffalo Catholic*

I work with my fellow President to run a club of around 570 students by coordinating student suppers, attending meetings with CU Student Organizations, leading student-run events, and bringing students closer in their faith.

Feb 2024 - Oct 2024

Co-Coordinator | *Buffalo Awakening Retreat*

I worked with my other Co-Coordinator to appoint 12 college students for leadership to choose the staff for a retreat for 68 fellow students. I planned and coordinated the retreat where I worked hands-on with leadership to help it run smoothly.

Aug 2022 - Present

Member | *Society of Women in Engineering*

Many networking and outreach opportunities, along with the support of fellow women in engineering.
